GLIDE N120 In-Ear Wireless Headphones

Features and benefits

Premium Metal Earbuds

Look good while you listen with stylish sturdy metal casing, designed to withstand the roughest of usage. The silicon ear-tips come in 3 different sizes (S, M, L) ensuring a perfect ergonomic fit for every ear.

Flex-Neckband

The cutting-edge, snug-fit technology offers a comfortable and sturdy fit. This ultra-lightweight headphone is great for both indoors and outdoors. So, keep it around your neck all day long, even when you're not listening.

Advanced Bluetooth 5.0 Technology

Going wireless with Bluetooth. Be amazed by the distortion free connectivity and high-fidelity sound that comes with the latest Bluetooth 5.0 technology. Enjoy a faster connection over a longer range, with lesser power consumption!

12 mm Large Drivers

Feel your music during a workout-fuelling, bass-driven listening experience. advanced acoustic design with the 12 mm composite driver, delivers a true stereo sound with distortion-free bass from different genres.

Dual Equalizer Mode

Comfortably switch between normal or deep bass mode based on your listening preference. Enjoy that powerful, well-balanced, club-like bass by just pressing the Vol Up and Down buttons. It's pure immersive sound at your fingertips!

3-Button Remote

Equipped with a three-button remote and a built-in microphone, Glide N120 that lets you play, pause, move to the next track, answer calls and so much more. Enjoy multitasking and the handsfree experience - all in one product.

7 hours of Playtime

Enjoy uninterrupted music or talk time for up to 7 hours with the advanced Glide N120. It also comes with a quick charge option for re-fuelling. So, let the music play on!

Magnetic Earbuds

These beautifully designed premium magnetic earbuds, snap together like art. So, feel free to hang them around your neck when not in use, for a tangle free, secure experience, that's trendsetting too.

Voice Assistant Integration

Glide N120 seamlessly integrates with Google Now/Siri on your phone by just pushing the power button twice. Now get to know the weather, check traffic, or send a message to a friend, without viewing your phone!
